## KEY SKILLS

**Frontend** – React | Redux | JavaScript | jQuery | CSS | SCSS | Bootstrap | HTML

**Backend** – Node | Express | Mongoose | RESTful API

**Other** – Git | Postman | MongoDB | MySQL | Squarespace | WordPress

## WORK EXPERIENCE

**Frontend Developer**

Paragon Design Group

05/2022 – Present

Remote

- Successfully converted design files into nine custom WordPress themes and three static websites, ensuring a seamless and intuitive user experience across all platforms.
- Collaborated closely with designers and developers to maintain design integrity, technical functionality, and ADA compliance on desktop, tablet, and mobile devices.

**Developer**

JPW Design Studio

04/2021 – 05/2022

Remote

- Developed custom website components and features using HTML, CSS, JavaScript, and jQuery to fulfill client requests outside the scope of Squarespace's CMS capabilities.
- Offered comprehensive email, web, and domain hosting support to clients, including connecting and transferring custom domains, creating custom business emails, and troubleshooting connection issues.
- Perform search engine optimization using best practices and provide clients with SEO recommendations resulting in multiple clients with increased rankings on Google.

**Production Supervisor | Electronics Technician**

United States Navy

2011 – 2018

Multiple Locations

- Managed production efforts of eight technicians and completed 1,228 maintenance actions in support of six military and civilian squadrons over the course of four years.
- Revamped department's Hazardous Material Program, achieving zero discrepancies in two annual audits and trained 122 personnel in proper safety, usage, and disposal procedures.
- Provided uninterrupted material support to 12 aviation work centers, processing 489 requisitions and 1,892-line items valued at \$20,400 in support of shipboard operations and maintenance requirements.
